✈ Education and digital - different worlds ?

the – natural? – reluctance towards technology

✈ A question of translation?

for a better understanding between digital and education communities

✈ Working together

lessons learned from the expert centre for education training

Education and digital - different worlds ?

the - natural? - reluctance towards technology

✈ education = transmission & communication

✈ teachers know what works!

✈ staff downsizing = less time

✈ digital = e-learning = staff downsizing?

✈ mastering digital technology is a job!

✈ ... teaching too!

A question of translation?

for a better understanding between digital and education
communities

- ✈ a need for communication and translation
- ✈ « translators » need to be education specialists first!
- ✈ goal : autonomous and independant teachers in their use of digital tools

Hotline

How do I ...

... deal with assessment online?

*... determine which part of my course
should be "turned digital"?*

*... make my revision material user friendly? I
have PDFs only...*
